DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 1-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- In claim 1: line 8, "said end panels" should be changed to --said primary end panels"; and the proper antecedent basis for "the end panels" in line 16 is not clearly set forth in the claim. It is not clear whether the term "the end panels" refers to "the primary end panels" in lines 2-3 or "the secondary inner end panels" in line 7.

- In claim 3, there is no proper antecedent basis for "said inlet and outlet conduits" in line 2.

- In claim 3, there is not proper antecedent basis for "the conduits" in line 3.

- In claim 5, there is no proper antecedent basis for "said secondary two piece end panels" in lines 1-2.

- In claim 6, there is no proper antecedent basis for "said side panel supports" in line 2.

- In claim 12, line 1, "secondary panels" should be changed to --the plurality of inner end panels--; and line 3, "an air distributing plenum" should be changed to --the air distributing plenum--.

- In claim 17, there is no proper antecedent basis for "inwardly facing surfaces" in lines 1-2.

- In claim 18; "includse" (line 2) should be changed to --include--; "ans" (line 2) should be changed to --and--; "from" (line 3) should be changed to --form--; and "plwnum" should be changed to --plenum--

- In claim 19: line 1, there is no proper antecedent basis for "said inside wall"; and lines 1-2, there is no proper antecedent basis for "said plenum".

The above are only a few examples of 35 USC 112, paragraph two deficiencies in the claims. Applicant is required to correct all such deficiencies in his next response.

2. Claims 1-19 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Each of Pearson, Soper, Bette, Whinnery, Levince, Eder and Warnock is cited to show an air solar heat collector.
